

PEER 1 Hosting Partnership Program for Magento

You Understand How to Implement Magento. Your Hosting Partner Should Too.

Magento Expertise – Fully Optimized Infrastructure – Profitable Partnership Programs

Certified Magento Solutions Providers make a lot of commitments. A commitment to the Magento technology: some of your business depends on it. A commitment to your business itself, to ensure you create loyal, satisfied customers and referrals. Most importantly, a commitment to your customers that implementation will be smooth, predictable and crisis free.

Some of that is within your control. Magento is a great product. You know your own capabilities with Magento. But the infrastructure... that's a question mark. For Magento Solutions Partners, it's a critical one. Because, in the end, the company you choose hosts more than your customer's site.

It hosts your reputation too.

Platform
Magento

- Storage Area Network
- Smart Monitoring

Not just any hosting company—no matter how many servers or how big a network—delivers seasoned Magento expertise and experience. PEER 1 Hosting does. As a Magento Gold Hosting Partner, we've been involved with scores of implementations, and today host Magento sites for companies large and small around the world. That's more than just a lot of carts. It's a huge amount of knowledge, experience and practical know-how making Magento perform its best.

BENEFITS

A Knowledgeable Partner. With scores of Magento sites running on PEER 1 Hosting infrastructure, we're experts at the tweaks and polish needed to make Magento perform its best. This includes things like database and RHEL optimizations, streamlining DNS lookups to minimize network overhead, and fine tuning the memcache server.

A Partner You Can Rely On. Track record is important. PEER 1 Hosting is one of the premier hosting companies in the world. Consistently profitable, we're a publicly traded company with 400 employees worldwide. Some of the world's most recognizable companies are hosted at one or more of our 17 data centers in Canada, the US and Europe. And we've consistently delivered results for Magento Solution Partners just like you who depend on us to grow and maintain their businesses.

A Focus on Making It Easy for You. PEER 1 Hosting makes things easy for you both during your selling cycle with your customer, and once your project begins. We're experienced partners that can answer prospect questions, research and resolve concerns, and make smart suggestions during the specification phase. And we're available every second of every day to help during and after implementation.

A Consistent and Reliable Revenue Stream. The PEER 1 Hosting Channel Partner Program offers a combination of one time commissions and evergreen commissions designed to complement the way you prefer to do business. Our straightforward and easy to understand commission reporting system gives you instant visibility into the Magento sites you host with us. The result is a reliable revenue stream that you can depend on to grow your business.

FEATURES

Fully Managed. We handle everything, from specification to provisioning, and from configuration to ongoing maintenance and support. And our strong Magento experience lets us proactively optimize, upgrade and monitor every aspect of the infrastructure for you and your customers.

Magento Optimized Infrastructure. We've selected and optimized the best servers, operating systems and networking components, and customized them to deliver the best Magento performance. And we'll work with you to specify a finely tuned solution that will meet the needs of even the most demanding customers.

Magento Sales Expertise. We've been involved in scores of Magento deals, with Magento Solutions Partners around the world. We know what prospects want when it comes to reliable and scalable Magento infrastructure and we bring this expertise to every opportunity to help you close more business. We can work with you strategically, or be available when you need us to respond to customer queries and concerns. Further customize your Magento optimized infrastructure with these fully managed add ons.

Smart Revenue Plans. We've developed a combination of commission structures that deliver a consistent, attractive incremental revenue stream for your business. Our one-time commission plans range up to 50% of the monthly recurring contract value of your customer's hosting plan with us. And our Evergreen commission program delivers up to 10% of monthly recurring contract value for as long as we host your customer's site.

FEATURES *continued from previous page*

PEER 1 Hosting Datacenters. Your Magento site can be hosted at any of our Managed Hosting datacenters in Canada, the U.S. and Europe. Each facility is enterprise-grade, fully redundant and managed by the best NOC in the business.

FastFiber Network™. Our wholly owned and operated FastFiber™ Network ensures the optimal performance of your Magento eCommerce infrastructure. Beyond that, we have peering relationships with over 1050 networks and use multiple Tier 1 upstream providers to ensure top network response.

Unlimited FirstCall Support™. FirstCall Support™ means Magento Partners have to make only one call to us to be certain of a rapid resolution to any issue. It also means we're available before, during and after implementation to help your project run smoothly. Our team of Level II and III System Administrators is available to you around the clock to ensure that your Magento infrastructure is running smoothly and reliably.
